INFORMATION IS POWER

IDT Energy is excited to be at the forefront of today's energy world. We would like the chance to be your electricity and natural gas supplier.

ENCLOSED IN THIS BOOKLET YOU WILL FIND:

- An explanation of where your energy comes from
- What energy choice means for you
- The difference between a utility company and an Energy Service Company (ESCO), and what they each do
- What **IDT Energy** has to offer you
- Information about the **IDT Energy** Community: our store, our blog, and our resource center

At [IDT Energy](#), we believe in informed consumers. The more you know, the more you can appreciate what we have to offer you, and the advantages to choosing [IDT Energy](#).

CHOOSING YOUR ENERGY SUPPLIER

Previously, your local utility provided your energy delivery and the commodity or supply services, but in recent years the Public Utility Commission's deregulation of many states have required utilities to allow competition for their delivery systems. ESCOs, such as [IDT Energy](#), can now offer commodity and supply services at competitive prices, lowering your overall rates.

IDT ENERGY: THE ESCO FOR YOU

IDT Energy has been approved by the Public Utility Commission and by your local utility to sell electric and natural gas supply services to both residential and business customers. This approval assures you that IDT Energy meets the objective criteria required to be an approved energy supplier, so you can choose IDT Energy with confidence.

What This Means For Your Utility Company

Your local utility is not affected when you choose an ESCO like IDT Energy for supply services. Since utilities supply your energy at a fixed price, they will give you the same level of service whether or not they are supplying your energy.

WHEN YOU CHOOSE IDT ENERGY, YOU GET:

- Competitive pricing
- Ability to buy renewable ("green") energy
- Committed customer service
- Reliability

COMPETITIVE PRICING

IDT Energy offers you competitive rates on the supply of electricity and natural gas for your home and business. We have the buying power to get long term energy supply at competitive pricing. At IDT Energy we pass the savings from our buying power directly to you.

BUYING GREEN

IDT Energy is a strong supporter of the green energy movement. We believe that using alternative energy sources has long term benefits that more than compensate for the slightly higher cost of renewable energy versus standard energy. These benefits, such as the quality of the air we breathe and the strength of our country, are investments in our future that cannot be measured in dollars and cents. IDT Energy invites you to join our efforts by buying green today - for a better tomorrow.

COMMITTED CUSTOMER SERVICE

We want you to be a satisfied, informed customer. Our customer service hotline is open seven days a week, and has both English and Spanish speaking representatives. Do not hesitate to call [1.877.887.6866](tel:1.877.887.6866) for any questions you may have.

RELIABILITY

With the support of IDT Corporation, which has been providing cost-saving consumer products and services to thousands of residential customers for over 20 years, IDT Energy offers you all the advantages of strong corporate backing, combined with personal service and attention. IDT Energy and its affiliated companies currently serve over 200,000 residential, small commercial and industrial customers.

JOIN OUR COMMUNITY

At **IDT Energy**, we believe in offering a complete energy solution. We are committed to providing you with safe, reliable energy at competitive prices, but we do not see our involvement as limited to just supplying your energy. To that end, we have created a number of programs designed to foster and unify the energy community, such as the IDT Energy Resource Center
